# ***GAT ECO.SIDE LOCK***

***GAT ECO.Side Lock is the world's first battery lock to include up to a 10-year battery life, acoustic alarm function, and complete in locker mounting, making it vandal-proof and ideal for the high aesthetic demands of owners and architects. If you desire an off-line, battery powered locking system, which is also easy to retrofit into your existing furniture, then the GAT ECO.Side Lock is the ideal choice.***

## **FEATURES:**

- Up to 10 year battery life (due to low energy consumption)
- Acoustic and visual alarm function at the locker
- Sleek and elegant design with complete in-locker mounting
- Vandalism proof (no external parts)
- Easy retrofitting for all locker materials
- Multiple operating modes – free, personal, and timed locker modes
- Configuration possible with system keys or NFC mobile phones
- Electronic master keys
- No key management
